MISS MABEL DUNN

Who Was Shot in the Back,
Finds Bullet Herself in
Right Breast

Miss Mabel Dunn, who was shot in
the back Halloween and has since
been in Wilson Hospital with the
location of the bullet still in doubt,
felt something under the skin of her
right upper breast Sunday morning,
and was rejoiced to find that it was
the 38-caliber bullet which so nearly
caused her death. The deadly missile
which even the X-ray failed to locate
had ranged upward in its course, pen-
etrating only part of the lung, but no
vital organ.

Mrs. Dunn, mother of Miss Mabel,
said yesterday that her daughter found

the bullet very unexpectedly and that
they were all much relieved.

She said that it rests with Miss Ma-
bel as to whether or not the ball would
be removed. It probably will be cut
out, as there is now no danger to re-
sult from its removal.

The young lady was yesterday taken
from Wilson Hospital to the home of
Mr. G. W. Owens in East Second street.

BREAK

In Columbia Gas Pipe Line Causes
No Inconvenience Here

The explosion in the big 20-inch Columbia
Gas pipe line near Ribolt Saturday morning
from some unknown cause, was quickly re-
paired and resulted in no interruption of gas
service at Maysville, as there was sufficient
storage gas in reserve to last Maysville con-
sumers half a day.

Three joints of pipe were blown out by the
explosion.

J. P. McClosky of Huntington W. Va.,
Superintendent of the pipe line, who was in
Cincinnati, rushed to the scene of the trouble
in a special train over the C. & O.

Three sections of pipe were taken from
Maysville by auto. The break was repaired
and the gas turned on at 3 o'clock.

From the time the line was shut down until
5 o'clock Saturday evening Cincinnati drew on
the reserve supply in the big East End gas
holders, where 2,000,000 cubic feet are held
for such emergencies.

Ninth District Teachers Will Meet—
Nicholas County Wins
Library

Mason county lost the library given away
at the Ashland meeting of the Ninth District
Educational Association Saturday, but next year
the meeting will be held in Maysville and it
will be quite the largest educational gathering
ever seen here.

The Ashland meeting was a pronounced suc-
cess as the interest and hospitality extended
the 511 teachers present was intense and
heart-felt.

That Maysville will do likewise when the
educators meet here is promised in advance.

The Ashland Independent, always enter-
prising and alert, contained the proceedings of
the meetings in full which greatly assisted
in the success of the big event.

The Independent noted at length the ad-
dresses made by Superintendent J. W. Drainer of
Maysville Schools and Miss Jessie O. Yancy
Superintendent Mason County Schools, noting
in part as follows from Miss Yancy's remarks:

"Miss Jessie O. Yancy, Superintendent of
Mason County Schools, a wife, a widow woman,
and one who stands for the consolidation of
schools, was heard today on her plans. Miss
Yancy showed pictures of the Maysville
School building, where 290 pupils attended,
and she also showed the picture of the nine
school wagons used to transfer the pupils to
and from school. Miss Yancy will have an
exhibit at the Louisville Child Welfare Ex-
hibit. Miss Yancy's ideas of consolidation
are not experimental."

Nicholas county was awarded the library
given to the county sending the largest num-
ber of teachers, as it had 114 present.

Officers were elected as follows:

President—Miss Lydia A. Gardner, Nich-
olas county.

Vice President—R. L. Gaither, Mason
county.

Treasurer—John Valledingbam.

THE COVER-ALL.

Children's Sleeping Garments completely cover little ones and prevent chilling the body during the night
hours when circulation is low.

The knit fabric contains a small percentage of fine wool, just enough to absorb the perspiration of the body
and avoid the clammy effect common to all garments made exclusively of cotton.

The cotton and the wool are double carded with infinite care and so thoroughly mixed that every thread has
its exact portion.

The fabric is specially designed on correct, hygienic principles to keep the body both dry and warm and thus
induce healthful sleep.

The fabric is washed and shrunk before cutting and positively will not shrink or scratch.
1 to 9 year sizes.

LUXURIOUS COMFORTS

Perhaps you think comfort quality varies slightly—that all comforts at \$1.00 are pretty much alike. Well we
want you to examine as many \$1.00 comforts as you possibly can, then tell us what you think of ours. After many
years experience in comfort buying and selling, we unhesitatingly declare these \$1.00 Comforts the greatest values
for the price ever offered.

SITUATION REVIEWED BY THE PRESIDENT.

In a recent published statement President Taft had this to say about the political future: "The sheet anchor of popular government is in the division of the people into two great parties and no more."

Mr. Taft deals with the Bull Moose movement in considerable detail. "I was surprised at Mr. Roosevelt's strength in the election," he says and adds, commenting on the Progressive platform:

"The difficulty I find with the present Progressive programme is that it contemplates the impossible. The country cannot afford to turn itself over to a class of men who do not deserve to figure in any more honorable light than quacks do in the practice of medicine. It would be too great danger to the body politic."

"When a party like the Bull Moose party comes forward and proposes to tear down all the checks and balances of a well adjusted, democratic, constitutional, republican government, then the issue affects the permanence and continuance of our government."

"The danger is from a party whose tendency is thus necessarily destructive of what has been laboriously established for the good and happiness of mankind by the struggles of centuries and which is headed as clearly for Socialism as the Socialist party itself."

"It behooves us, therefore, as Republicans to look forward to the time when in the natural course of events, the Democrats shall have disappointed the public, to be ready to prevent that disappointed from being used by the Bull Moose and Socialist combination to get into power."

Political Pickings

Houston Post: We are glad President Taft was beaten, but we shall utter no word of commendation for the Republican highlanders who stabbed him in the back.

Chicago Inter Ocean: Incidentally, we note that for the first time since he became champion Jack Johnson had to take off his own shoes Friday night.

Baltimore Sun: What a trustful, simple-minded man Henry W. Blair is! He wants Roosevelt to promise to quit running for President.

New York World: It is a safe bet that the man that started the story that Mr. Roosevelt is to adopt a policy of silence is a nature faker.

Detroit Free Press: President-elect Wilson is pledged by the Democratic platform to one term, unless he changes his mind.

TWO EDUCATIONAL SUGGESTIONS.

An article on "The Boy of Tomorrow," which is the first prize essay on education in the World's Work contest compares the schools of yesterday and today, and forecasts what they will be tomorrow, when we transform our experience into an intelligent purpose. We copy one paragraph as follows:

"The school of tomorrow will have over its door 'We conserve the whole boy.' The watchword of the school of yesterday has been 'We preserve the entire course of study.' Those who managed the schools of yesterday thought that children were created for the exemplification of the curriculum. In the schools of tomorrow the curriculum is arranged to serve the needs of the pupils. In place of machine operatives in the factory of instruction we shall have teachers who believe that they are rendering the right service when they teach boys and not merely subjects. I inquired once of a group of teachers what they taught. One said mathematics; another replied English; still another science; but the fourth—God bless the little prophetess—merely said, 'Please sir, just boys.'"

If every member of a Board of Education (for they are responsible for educational conditions) would sit down and study that paragraph for an hour, and get at its meaning, they would begin to realize the great necessities of the educational field. We associate the course of study with education so much that we assume they are one and the same, and such an idea is utter treason to education. The course of study is a help, not an object, and yet we make it the latter. We will have to take a higher stand than that if we would make our school a first class investment. Here is another paragraph from the same thoughtful article:

"In short, I would look squarely at the life itself and see what the day after tomorrow requires of its citizen-to-be, and I would center my energy and his energy upon the mastery of these things—health, character, interest in and capacity for service, appreciation of the beautiful and true, and such details of theories, facts and past accomplishments as will make possible the development of human efficiency."

There is education as it should be looked at by those in authority. Learning grammar and arithmetic is not education, unless they are made helpful in the creation of tendencies, the inspiration of purpose, the formation of habit, and the adjustment of oneself to the demands and duties of his environment; and the textbooks do not do these things of themselves. When we get on to that fact we are prepared for a forward step and not before,—Ashland Independent.

FIGHT

On Tax-Dodging Corporations Begins.

County Judges and Attorneys Meet and Urge Appointment of Special Counsel To Assist Attorney-General in Tax Suits Involving Millions.

Justus Goebel Makes Strong Speech at Meeting.

At a meeting of the county judges and county attorneys of the State held at the House of Representatives, Frankfort, Ky., on Nov. 8, the following resolution was adopted:

"Resolved, That we, the county judges and county attorneys of the State, in convention assembled, heartily approve and endorse the action of the State Board of Valuation and Assessment in placing upon the great corporations of the State, enjoying valuable public franchises and privileges, their just share of the burdens of taxation and we commend their act to the people of the State as constituting the greatest tax reform of many years, and while we entertain the very highest regard and respect for the ability of the Attorney General and his assistants and the Hon. John L. Rich, of Covington, employed as assistant counsel, we are unwilling that any lack of counsel on behalf of the State should endanger the just and patriotic action of the State Board of Valuation and Assessment, and we recommend to the Attorney General and the Governor of the State that an emergency exists and that the most eminent counsel be employed to defend the action of the State Board of Valuation and Assessment in the United States Court."

Justus Goebel, of Covington, made a speech before the assembly, pleading for the employment of additional counsel for the State. Mr. Goebel said:

"Mr. President, Gentlemen and My Brother Kentuckians: "I am most happy to meet with the county judges and county attorneys of the State. I am grateful beyond my powers of expression for the invitation of your President which permits my presence here, and asks some expressions from me on this occasion. "You, the gentlemen of the respective counties of the State, who have been elected to office and charged by law to protect the interests of widows and orphans—estates in the hands of trustees—the every citizen and taxpayer who voted for you or against you, as well as those who did not vote at all; you, all of you, in your official capacity have sworn duties to perform, and out of gratitude to those who have honored you, you must have great desire to perform those duties well. With reference to the business of this day—to the subject-matter here to be discussed—your sworn duty is to protect the interests of every taxpayer of the county you represent."

Corporations Deny People Rights. "You are here to consider a matter of infinite interest to your people as a whole. The subject involves an inherent and constitutional right which has long been denied them because of corporate avarice and greed and the weakness, if not dishonesty, of some in whom the people in the past have placed their trust. "That the great common people should bear only their fair and just proportion of the burden of taxation is one of the greater blessings to our kind for which my brother, William, labored and prayed and because of which he was finally assassinated. "Is it surprising then that I am here filled with a profoundly earnest desire that the people of my State, of the State of my martyred brother, shall come into the enjoyment of a right to which in all law and in common honesty they are entitled?"

Unjust Taxation Upon People. "Too long, altogether too long, has there been unjust discrimination against the people, unjust and burdensome taxation upon the people as compared with what has been required to be paid by the big corporations of our State. Corporation lawyers have boastfully said 'The death of William Goebel was a benefit to the corporations.' If this were true, the question is, how much longer shall the people be held in bondage because of his death? "God knows the corporations now using the State have been able to procure (and the word procure is used advisedly) immunity long enough from paying their just share of the taxes."

People Are Awakening. "A hundred million dollar increase in the value of corporation property for taxation opens a new era in the State's affairs and has awakened the people and brought them to a realization of what has been done to them through all the years of the past. As certainly as truth, though crushed to earth, will rise, just so certainly will there be a further awakening which will correct abuses equally as great as unequal taxation, and its effect will be that henceforth every man who would hold office by preference of the people must be a progressive, and no limitation, no mere pretender will satisfy them; they will sweep aside and into oblivion as old chaff any man who hesitates or dares to stand in the way of improvement and betterment of conditions for the whole people. "No one doubts, had William Goebel been permitted to live, that that which was recently done by the Board of Valuation and Assessment would have been done more than a decade ago, and today, instead of the large public service corporations fighting in the courts and by sinister methods endeavoring to perpetuate unjust and unequal taxation; attempting to throttle the action of the present State taxing board, the first to act fully in the interest of the people, such corporations would long ago have been paying into the State, county and city treasuries their just proportion of the taxes."

State. Corporation lawyers have boastfully said 'The death of William Goebel was a benefit to the corporations.' JUSTUS GOEBEL. "Equality is all I want."

"Some of you may think this is mere speculation but to those who so think, I say—I know whereof I speak, and believe the railroaders well understood what he would do were he permitted to live."

William Goebel's Way.

"Had William Goebel been permitted to live, one of his first acts as Governor would have been a demand on the State taxing boards to deliver into the matter of values of the properties of the wealthy public service corporations of the State, and further that those properties be adequately assessed. If the Railroad Commission or Board of Valuation and Assessment had failed or declined to make assessments according to what was just and fair he would instantly have called an extra session of the legislature and had it appoint a committee with directions to thoroughly investigate, to find and report the true fair value of the property of such corporations. The facts thus obtained and presented by that committee and its experts he would have given to the public and simultaneous therewith would have gone forth his demand upon those State boards to assess those properties for taxation in accordance with the truth; if then the State board had still failed or refused to do their sworn duties to the people he would have impeached them and driven them from office. If the present Board of Valuation and Assessment had not done its full sworn duty by the people, that is just what should have been done to them, but, thank God, for once it has acted in the interest of the people."

"Necessarily for action in the interest of the people has grown as years have passed, until it has developed into what is today a crying shame from which relief must come."

"It is very evident that in Kentucky, as in other States, big corporations will never pay a cent more of taxes than they are made to pay."

"Gentlemen, I am going to prove it in a few minutes. Take the case of the C. & O. Railroad. Where is Mr. Wall? I would like for him to hear me."

Low Valuation of C. & O. Railway. "Take the case of the C. & O. Railroad. In 1911 that road on its entire system in Kentucky paid taxes on a total valuation of only \$9,313,270, whereas, the street railway company of the city of Louisville was assessed on a valuation of \$10,800,000. Think of it, gentlemen! "The C. & O. R. R. in 1901 paid taxes on a franchise valuation of only \$2,171,189, and in 1911 on a valuation of only \$2,743,350; whereas, the board found that their 1912 assessment should be \$18,738,630. The C. & O. & T. P. R. R. in 1901 paid taxes on a franchise valuation of only \$3,110,197, and in 1911 on a valuation of only \$3,559,320, whereas, the board found their 1912 assessment should be \$10,744,200. The I. THE BUSINESS MEN OF TODAY

are fully aware of the value of good dressing as a business asset. They regard well made, perfect fitting suits as much of an essential as the traditional qualities of a well kept store or office. The only question is who is the tailor who can make them the most satisfactory garments? There can be no question of doubt if you place your order with us. Remember this is the only store in this section where you can buy Ed. V. Price's made to measure clothes. See the new browns we are showing for \$18 to \$22, they are real. Remember we repair all our dry clean work free of charge in a workmanlike manner.

IN MAYSVILLE

THE EVIDENCE IS SUPPLIED BY LOCAL TESTIMONY

If the reader wants stronger proof than the following statement and experience of a resident of Mayssville what can he say? Mrs. Della Lunford, 328 E. Front street, Mayssville, Ky., says: "Doan's Kidney Pills completely and permanently cured me of kidney complaint and I am glad to confirm all I said in 1908, when I publicly endorsed them. I attribute my kidney trouble to a strain which started with sharp shooting pains through my kidneys, and a dragging down feeling through my hips. I was afflicted regularly with dull headaches and dizzy spells, and often if I had not caught hold of something for support I would have fallen. I was in that condition for several years, up one week and in bed the next. I finally began to notice the symptoms of dropsy, and in a short time I was suffering from this trouble. My feet began to swell and my hands also were afflicted at times in the same way. At night I was restless and always felt tired. I read of a similar case being cured by Doan's Kidney Pills, and I got the remedy at Wood & Son's Drug Store. This relieved me so much from the first that I got another supply, and before long I was entirely cured. Doan's Kidney Pills saved my life."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

AFTER COUGHING MONTHS

Brooklyn, N. Y., Woman Found Relief in Vinol

"Did you ever cough for a week? To a just think how distressing it must be to have a cough hang on for three months."

Mrs. Marie Primrose of 87 Mewell street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough which kept me awake nights for fully three months, and felt tired all the time because my rest was broken. The effect of taking your cod liver and iron remedy Vinol is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way."

It is the combined action of the medicinal elements cod liver oil and iron which make Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. John C. Pecor, Druggist, Mayssville, Ky.

the franchise valuation of only \$1,889,870, and in 1911 on a valuation of only \$4,510,320, whereas, the board found their 1912 assessment should be \$14,746,857. The L. & N. R. R. in 1901 paid taxes on a franchise valuation of only \$6,504,879 and in 1911 on a valuation of only \$11,899,200, whereas, the board found their 1912 assessment should be \$46,428,074.

Fight Must Be to a Finish.

"I want to tell you gentlemen, that that assessment is fair and just, and if we get justice in the courts we will win. But, no less a man than the Hon. William J. Bryan, the great champion of the people, has stated that courts do not always do justice to the people; and that other great champion of the people, Hon. Theodore Roosevelt, said the same thing, and recently charged that some of the judges he put on the bench proved dishonest. Gentlemen, I want you to go into this fight, with an ardent heart and with loyal lawyers, and fight to a finish and to death, if necessary. Now, I want to say to you I am no corporation hater, I am a business man. I know we have to have corporations, and big ones, but we don't have to have them to the disadvantage of the people. I want them to have dividends. But I do not want them to reap them at the expense of the people and the other taxpayers. Let them pay what the other taxpayers pay. Equality is all I want."

"Without exception all these companies and the two others now suing wanted the same assessment for 1912 that they had in 1911. The Board of Valuation and Assessment based their 1912 assessments on convincing proof of values placed before them, and the assessments are uniformly just and fair, and of the more than four hundred corporations assessed by the board this year, only eight have protested in the court, and these are among those that have always proportionately paid the least."

State Robbed of Millions.

"In the last twelve years, since the death of William Goebel, the State, counties and cities have been robbed (and the word robbed is the only word that fits the case) of more than ten million dollars in taxes."

"I am going to prove it."

"In the years from 1902 to 1911, inclusive, a period of ten years, there has been an average increase in the franchise assessments of the four largest railroads in the State of only 1 1/2 per cent yearly."

"Think of it! and this almost unbelievable record of astonishingly small increases was made in the ten last years for earnings that the railroads of this country ever saw."

Inadequate Taxation of Railroads.

"The picture here presented of the previous inadequate franchise assessments is astounding, but when one examines into the situation regarding the tangible assessments made by railroad commissions of the properties of four of the corporations now suing, the State, the word 'astounding' is in adequate and here must be supplied by the word 'dumbfounding' to state more correctly what the tangible assessment picture actually presents."

"Take the case of the C. & O. R. R. and the records show that the tangible property of this company in 1892, 20 years ago, was assessed at \$8,019,577. Notwithstanding the much added mileage of road, double trucking of a vast system, acquiring much new real estate, probably more than doubling the equipment of engines and cars, and meantime increasing by earnings the value of its stock 650 per cent, this company's tangible property was assessed in 1911 at only \$6,270,270, or 21 1/2 per cent less than in 1892, 20 years ago. Further comment to show that our State has been robbed is unnecessary."

"The other railroads have been similarly inadequately assessed on their tangible property for many years."

Corporations Prevent Honest Valuations.

"In fact, until this year the Board of Valuation and Assessment has been controlled in the interest of the wealthy corporations by some hook or crook, either friendship, political favor, rendered or to be rendered, bribery or intimidation, but never before has the State, counties or cities been given what they were rightfully entitled to."

"Another of the many examples of flagrant abuse of public trust."

"I wish I could leave out of my remarks what I am about to say, but that is impossible under present circumstances. Until now, I have said very little about the L. & N. Railroad. Some may say that I have an animosity to the L. & N. Railroad Company, because of the assassination of my brother. I say, gentlemen, that is a mistake. In my state of health and at my age, I have nothing but love for my fellow men, whether they agree with me or not. Next to the last words that my dear brother spoke were these: 'They do not understand. I forgive them. There may be some who now do not understand me. Gentlemen, the men elected to office did not do their duty. I hate to say so, but I am here to speak the truth, and all I have fought for in the past seven months is justice and fairness for the people.'"

"Another of the many examples of flagrant abuse of public trust is to be found in the records of our State pertaining to the franchise assessments by the Board of Valuation and Assessment of the L. & N. R. R. In 1901 this company's franchise assessment was \$6,504,879, in 1902 the assessment was increased to \$10,774,899, and the L. & N. brought suit to enjoin the State from collecting on the increase of \$4,270,020."

"I said a while ago that the corpora-

tions will never pay a cent more than they are made to pay, and you will see that proven."

"In 1903 with the validity of the 1902 increase pending in the United States Court, the Board for some inconceivable reason fixed the franchise assessment of this company at \$2,588,994 less than the 1902 assessment. In 1904, with the validity of the 1902 increased assessment still pending in the court, the Board fixed the franchise assessment of this company at \$2,140,259 less than the 1902 assessment. In March, 1905, the suit of the L. & N. Company against Auditor Coulter was decided in favor of the State, the court holding the 1902 franchise assessment of \$10,774,899 to be valid; but, notwithstanding the fact of this court proof of value of the franchise of the L. & N. Railroad, in 1902, the assessment against this company did, at no time, reach the equal of the 1902 assessment of \$10,774,899 until 1911, and this, in spite of the fact that Milton H. Smith, president of the L. & N. R. R., testified in the United States Court at Frankfort, in 1908 that the tangible property value alone of the L. & N. Railroad in Kentucky in 1905 was \$70,000,000."

"Gentlemen, I am quoting from public records. This is more proof of how our State has been robbed. Accurate information enables me to say for Hon. C. C. McChord and Auditor Henry M. Bosworth, two gentlemen who served on State Taxing Boards in years past, that they were at the mercy of a majority adverse to their views and inclined against the interests of the people."

"What the Increased Valuation Means. 'What does the hundred million dollar increase made by the present Board of Valuation and Assessment on corporation franchises mean to the people of different sections of the State and to the whole State?'"

"The one hundred million dollar increase means half as much as the amount of the total value of all the property equalized for taxation in the county of Jefferson, which includes the city of Louisville. Comparing the increase with the counties that contain the three largest second class cities of the State the increase equals the amount of the total value of all property equalized for taxation in the counties of Campbell, Fayette, Kenton and Franklin, which include the cities of Newport, Lexington, Covington and Frankfort."

"Comparing the increase of one hundred million dollars with the Western section of the State, it equals the amount of the total value of all property equalized for taxation in the entire First Congressional District, embracing thirteen counties, and, in addition thereto, of all the counties of the Second District, with the exception of Henderson and Davies."

"Comparing the increase of one hundred million dollars with the Central portion of the State, it equals the amount of the total value of all property equalized for taxation in the Eighth Congressional District, embracing ten counties, and in addition thereto to the county of Fayette, which includes the city of Lexington."

"Comparing the one hundred million dollar increase with the Eastern section of the State it equals the amount of the total value of all property equalized for taxation in all the counties embraced in the old Ninth and Tenth Congressional Districts, with the exception of the county of Fleming, or, in all twenty-six counties."

Crisis in Kentucky's Affairs.

"This is a crisis in the affairs of Kentucky. It is a fight brought by eight tax-dodging corporations directly against the more than 2,000,000 souls who live in the 98 counties of this State, traversed by their lines."

"This is a fight of wrong against right; inequality against equality; unfairness against fairness, and injustice against justice."

"Those last words of my brother—'The brave and fearless and loyal to the great common people,' have never ceased burning in my brain, and in my heart, and when in August last I was beset to agree to a reduction of many millions on the new 1912 assessments, I gave the exact feeling that possessed me then and it is the same today—I would rather lose my life than be a party to a shameful compromise of what I know rightfully belongs to the State and the people."

"I am opposed to making a political asset of the matter of employment of additional counsel to pay debts or purchase a favor. What I have done to assist the board, any other private citizen could have done. If some of those who were so quick and prompt when there was a job in sight, to intercede for certain attorneys, had in years past turned their attention to relieving the sufferings of the State and people from unequal taxation, they would at this hour be rightfully entitled to some consideration in the selection of special counsel."

Corporations Again Show Hand.

"I charge, and am willing and ready to prove if necessary, that emissaries of these corporations, who, by dark and dissimable methods, tried their best to prevent the Board of Valuation and Assessment from making proper assessments of their property, are today meddling in the matter of the employment of special counsel to assist the Attorney General in these cases against the State, and if they can control the selection they may be depended upon to pay 'any man of straw' more than the State will agree to pay."

"There are men who have said in places to our Attorney General that in the employment of Attorney John L. Rich, the State had gone far enough, but to such men I would say: 'Is your

only interest the welfare of the people, and have you proven that there is no other interest that is greater with you than the people's interest?'"

"I would like to see these men 'trotted out,' so we all may know what they look like and what their connections are."

"It was determined and partly arranged to employ Louis D. Brandeis, 'The People's Lawyer,' of Boston, as published on April 12, 1912, in the making of the tentative and final assessments by the Board, if necessary, but we did without his services, and now that the assessments have been made and the eight big corporations have instituted suit against the State it is hoped that if Mr. Brandeis, who is now spoken of as likely to be a member of President Wilson's cabinet, is unable to accept employment in defense of the State's interest, there will be employed one or two other counsel, the best to be had in the United States, whom Mr. Brandeis may recommend to the Attorney-General to assist in representing the State."

"Ability, known loyalty to the cause and assured freedom from corruption taint, should be the gauge to govern in the selection of an attorney to assist in the defense of the State's, and the counties' interest."

"When first I determined to give myself to this work of compelling adequate taxation of corporations, I knew they would invoke every power of the world, the flesh and the devil that could possibly, by fair means or foul, be commanded to aid them to prevent the carrying out of my designs, which were already a part of the just law of the land, and I have not been disappointed."

"Committee To Assist Lawyers. 'For years I have known the public men of the State and from many eligible to be chosen for such service I have thought of some who have studied these questions and who know who can be trusted to assist in the effort to have your counties enjoy what the law intended, and what the present State Board of Valuation and Assessment by its 1912 assessments has made possible of realization. These men I am not afraid to trust to act in an advisory capacity in the premises, they are and have been prominent in the affairs of the State. I refer to Governor James H. McCreary, Attorney-General James Garratt, Hon. Cassius M. Clay, of Bourbon County, and Hon. James Richardson of Warren County. I would like to be honored by being on that committee, because of my infinite interest in this matter. I have drawn a form of contract which I shall read and hand to your Secretary and submit for your consideration. I feel that its fairness will at once address itself to your honest intelligence, and I beg that you return to your home county and urge upon the individual members of your county fiscal court that it be promptly executed, so that our forces may be enlisted and organized for this legal battle, the first skirmish of which must be fought on the 20th day of the present month in the Federal Court here in Frankfort."

"Plan for Securing Counsel. 'This, of course, only with the understanding that your fiscal court will want to make any contract at all for special counsel. I have never thought much of this plan for securing the employment of the needed special counsel in these cases because, at best, when special counsel are employed and paid, the people bear the expense and if the counties rather than the State employ and pay, it is only taking money out of the left-hand pocket instead of the right—the people, in the end, have to pay all the expense any way. I turned to this plan only when I found or there seemed to be no other way to satisfy the Attorney General and to get for the people the needed special counsel. The Attorney General himself proposed to me the 20 per cent as a fee to be paid by the counties to Mr. Rich, and said that he would secure the making of such a contract with Mr. Rich by five counties, and named them. When this matter was first proposed to me I said I would have nothing to do with the matter unless there was a clause in the contract which would give absolute protection to the people to prevent any lawyer from being paid an excessive fee for the services rendered. I have labored for months and years to bring about the assessment made in 1912 and that without compensation, and it will become any man to say that he has a greater desire to economize in the interests of the people than have I. In the form of contract, I shall submit, I have safeguarded the people by providing a committee of honorable men to see to it that no man have more than a reasonable fee and that, together with all other expenses to the counties, to be within the limit of the 20 per cent suggested by the Attorney General."

"The eight suits that have been brought against the State and counties must be fought through all Federal and State courts and are of vital importance. They involve for the State \$382,389 and for the counties, cities and taxing districts \$823,396, or a total annually of \$1,205,785."

"I feel that your approval of the form of contract which I have submitted will prove your loyalty to your constituents and in the end will accomplish great and everlasting good for your home county people and all Kentucky."

"A Saddening Picture. 'Behind the scenes there is a picture that is saddening to me in connection with all this matter. Our State, the great State of Kentucky, is rendered impotent, because the Governor, the chief executive of our State,

Why do people always laugh at a newly married couple? What's the joke? I have always figured that the time to laugh is when they go, down town with their first baby."

and the Attorney General cannot agree as to the need of the people. The Governor is in favor of additional counsel, and the Attorney-General says he has enough, and is willing to accept the responsibility of this fight, and carry on these suits with the force he now has. I say the responsibility is too much to ask him to assume."

"We are fighting a monster, we are fighting a demon that will resort to anything—and they tried everything but murder to prevent the board from making these assessments."

"They have attempted to corrupt the Board of Valuation and Assessment, and they will go further to attain their end. If they can, they will corrupt the courts, as they have done ere this. And that is what I want to convince, out of and warn you against. Protect yourselves and others in these cases and have lawyers who will make the facts so clear that there can be but one course open to the courts, and then they will follow it."
